## EASTBOUND HOV LANE PROJECT

### WHAT'S BEING PLANNED

The I-580 Eastbound High-Occupancy Vehicle (HOV) Lane Project proposes to construct an eastbound HOV lane in the existing median of I-580 in Alameda County from east of Greenville Road in the City of Livermore to the Hacienda Drive interchange in the City of Pleasanton, a distance of approximately 11.3 miles.

The purpose of the project is to reduce eastbound peak-period congestion and delay, encourage use of high-occupancy vehicles and transit, support regional air quality attainment goals, and improve safety for motorists and Caltrans maintenance workers.

### EASTBOUND HOV LANE PROJECT LOCATION

## WHY THIS NOTICE

Pursuant to the National Environmental Policy Act (NEPA) and the California Environmental Quality Act (CEQA), FHWA, Caltrans and ACCMA have studied the effects this project may have on the environment. Findings show the project would not significantly affect the quality of the environment. The report that explains why is called an Environmental Assessment/Initial Study (EA/IS). This notice is to tell you that the EA/IS is available for your review and comment. Caltrans and ACCMA also offer you the opportunity to request a public hearing on the project.

## ENVIRONMENTAL DOCUMENT AVAILABLE FOR PUBLIC REVIEW

The Federal Highway Administration (FHWA), the California Department of Transportation (Caltrans), and the Alameda County Congestion Management Agency (ACCMA) are seeking public comment on the Environmental Assessment/Initial Study (EA/IS) for the I-580 Eastbound HOV Lane Project.
